

NEWHALL COUNTY WATER DISTRICT

Newhall County Water District is offering a Residential Sprinkler Nozzle Program.

The program offered will supply a free nozzle per each purchased spray head to replace all the sprinklers in a residential front yard turf area only.

Powered by H²O Chip Technology, Toro's new Precision Series Spray Nozzles deliver increased efficiency over standard spray head installations, using 1/3 less flow to reach a radius of a conventional spray nozzle. By lowering the standard precipitation rate to 1" per hour – or less, these nozzles are designed to use less water and reduce run off.

To view the water conserving power of the 570Z PRX and Precision Sprinkler nozzles for yourself click on the link below.

Water conservation has never been easier.
