

NEWHALL COUNTY
WATER DISTRICT

How to Become a District Vendor

The District encourages purchasing goods and services from local vendors. The purpose of this section is to explain how a vendor may provide and bid on District goods and services. The District is always looking for responsible vendors that can provide goods and services at a fair price and in the time needed.

Potential vendors are selected for their ability to serve the need of the District in the most economical and efficient manner possible on a continuing basis. Past performance of vendors and cooperation with the District are important factors in vendor selection.
