

NEWHALL COUNTY  
WATER DISTRICT

## **Vendor Registration**

Interested and responsible vendors can fill out a "**Vendor Registration**" application form to add your company name to the District's vendor file. Submitting a Vendor Registration form will help the District identify potential vendors when the District is requesting a quotation or bid for specific goods and services. The completion of the form does not guarantee that a vendor will be notified every time a quotation or bid is solicited. The District may also solicit vendors that have not filled out the form. Failure to respond to solicitations may result in the removal of your firm's name from the District's vendor file.
