

NEWHALL COUNTY WATER DISTRICT

“You Save, We Pay.”

A Customized Water Efficiency Rebate Program

Newhall County Water District is offering to all Single Family Residential customers a rebate to install water saving devices or technologies that are not available in any other current or past rebate program

What are the benefits of a customized program?

It provides the District with the flexibility to offer as many rebates as possible on devices and technologies that can save water.

What devices or technologies qualify for a rebate?

Most devices and technologies currently being rebated by other Southern California Water Districts may qualify for a rebate. Any other devices or technologies will be considered.

How much is the rebate?

In most cases the rebate amount will match the rebate offered by the other water district that currently has the rebate available. All other rebates will be determined on a case by case basis.

Are there any devices or technologies that don't qualify?

NCWD will review all customized rebate requests and reserves the right to qualify or exclude any proposed device or technology.

What do I need to do to receive a rebate?

All customized rebates must be pre-approved prior to acceptance into the rebate program. Email all requests along with the website link for the current rebate offered to waterefficiency@ncwd.org. If the device or technology is not available through any other Southern California water district you can directly contact the water efficiency department at 661-259-3610 x 811 or email us at waterefficiency@ncwd.org

All emails must include Program Name, Customer Name, Service Address, Account Number and a Contact Number

All customers approved to receive a rebate will receive a confirmation notice allowing the purchase of the approved device or technology. DO NOT purchase the device or technology prior to receiving your confirmation or your rebate will be revoked. Directions for receiving the rebate will be included in the confirmation.

Still have questions? Give us a call at 661-259-3610 x 811.
